**DECLARATION
and
TRACEABILITY CONFIRMATION**

for Käfer dial gauges and instruments with dial gauges
valid from **January 2025 till May 2027**

Dear Ladies and Gentlemen,

We declare in our sole responsibility that our products comply in their quality characteristics with the standards and technical data specified in our sales documents.

We confirm that the test equipment used in the testing of this product, secured by our quality assurance system according to ISO 9001:2015 as required in chapter 7.1.5 for gauge management, is traceable to national standards and that the test equipment is checked and documented at regular appropriate intervals.

All dial gauges and dial gauge devices are subjected to an accuracy check as well as a final inspection with visual inspection of mechanical functions (100% control).

The traceability of the test standards used to national standards of DKD or PTB according to DIN/ISO 9001:2015 is guaranteed. The current traceability to the national length standard is carried out via:

The actual traceability is achieved by means of the following numbers.

These devices are monitored by our measurement and test equipment management.
